

SOLRISE : MONEY

**Exploitation of the poor, money to buy blood, sweat & tears like a young whore
Pam pam push it till the can no more, globalization rams them wages to the floor.
Just make them work a little harder so they can get it cheaper
Just make them work a little harder so they can get it cheaper
From money to money to moneypulation,
to the obsession to control the entire nation,
Money is power and money is fame, and politics is their favourite game
Innocent civilians are dying by the hour, and politicians lies are turning sour,
Cos they feed the greed but not the seed that makes you grow,
Move so slow cos they blinded by the gold.**

Money

**Money, to rule us all
Shine so bright, till you blinded
Money, to rule us all**

**Who can, can we turn it around? ,
move to the groove and spread that loving around.
Turn the negative into the positive.
Stand up strong and don't let yourself drift.
Be swift to lift yourself up from the mist, get a clear vision from all them confusion
Fight injustice and mental pollution, we got find a solution.
Com on Abolish the monetary system ,
so com along and create a new currency that is public, so now u cant control its
worth, and u cant plunge entire the market
Feat: (everybody whants some money)
They see love as weakness, they see love as stupidity
They see love and it makes them gelous, but love is the only way.**

Money

**Money, to rule us all
Shine so bright, till you blinded
Money, to rule us all**

Feat: MC RAGATECK

**(El dinero es solamente, de quien lo fabrica. La estupides humana siempre sera
infinita. Fabricantes de dinero, ve directo al banco, pagalo primero.
La abaricia rompe el saco, te endeudaste te vendiste, te llamaste esclavo manco,
la pierna te empeñaste, pa pagarte unos zapatos.
El dinero no existe es pura fantasia, comprate unos productos, rompemos la
alcancia.)**

Money

**Money, to rule us all
Shine so bright, till you blinded
Money, to rule us all
All this fighting and dying, suffering and crying for money.**
